99444		E-mail (similar to telephone calls)

Effective August 19th, 2019 when you contact your clinician via phone or email with a new clinical issue, you will be billed for that clinical care at your clinician's rate for calls or e-mail interactions of longer than ten minutes. It is likely your clinician will ask you to come in for a follow-up visit or take part in a video visit if your clinical concern can't be resolved in ten minutes or less by phone or e-mail. Please note that you will not be billed for any contacts that are part of a previously discussed clinical plan such as a brief, planned follow up. We will continue to make every effort to inform you when a contact will be charged. We hope this change will improve clinical care for all of our patients.

**Travel time for home visits or school visits is billed at 50% of hourly rate
Your clinician, at their discretion, may waive the travel time if 10 minutes or less.**

All professional fees are doubled if your child's clinician is required to appear in court or participate in any other legal proceeding related to their treatment.
